

COOPERATIVE AGREEMENT
BETWEEN
SPOON RIVER COLLEGE
AND
CARL SANDBURG COLLEGE

WHEREAS, the legal boundaries of both Spoon River College and Carl Sandburg College cause some students in both college districts to be located closer to one college than another, and

WHEREAS, it is desirable to provide an opportunity for students in both districts to continue their education in the most economically manner possible; and

WHEREAS, it is desirable to provide students of these districts with the option of attending either community college at in-district tuition rate charges without the sending community college being billed for “charge backs”; and

WHEREAS, both colleges would continue the practice of joint student recruiting where secondary districts overlap community college districts while simultaneously pledging to not actively recruit in non-overlapping secondary districts; and

WHEREAS, students in each community college district desiring to attend the other community college would be required to obtain permission from the sending college.

NOW THEREFORE BE IT HEREBY RESOLVED by the Board of Trustees of Spoon River College and Carl Sandburg College that students living in either district may attend either community college and pay in-district tuition rates.

Either Spoon River College or Carl Sandburg College can terminate this Agreement with a 90-day notice. This Agreement will be renewed annually.

This motion having received majority affirmative vote of a quorum of Trustee members present, is hereby declared PASSED and APPROVED.
