

CARL SANDBURG COLLEGE

Board of Trustees Meeting

Regular Meeting – June 28, 2007

Item 4.4 RAMP Document Approval

Institutional Focal Points/ Goals

II-D, V-C

Background

We are required to submit a Resource Allocation Management Plan to the Illinois Board of Higher Education and to the Illinois Community College Board. Due to changes in applicable rules, we must submit the plan itself to ICCB by July 1 each year.

The information requested is, in the main, statistical and reflects a streamlined approach to data collection by ICCB. The report also includes a request for facility improvements according to the College's longer term needs as reflected by the District Site and Construction Master Plan approved by the Board of Trustees May 23, 2006. This year's submission concentrates on improving the roadways and parking lot surfaces at the Galesburg campus.

Recommended Action

The Administration recommends approval of the RAMP/CC 2009 report for submission to the Illinois Community College Board.
